

## Devon Wedge Heel Offloading Shoe

### Description:

The Devon Wedge Heel Offloading Shoe is clinically proven to offload pressure from the heel by shifting weight to the mid and forefoot. It can help heel healing faster after surgery, trauma or wounds. The Heel Wedge OP shoe also includes a removable stabilizing strap feature that eliminates buckle pressure on the forefoot closure.

### Indications:

- Post-operative
- Post trauma applications
- Rear foot wounds

### Product Features:

- Square toe design protect the toes
- Removable forefoot stabilizing strap
- Reduces heel pressure
- Breathable, moisture-wicking mesh fabric
- Cushioned and nonskid
- Soft inner lining
- Universal left and right foot
